[ASX:MGL]

Corporate Governance Statement
Year ended 31 Dec 2018

Approved: 28 February 2019

Introduction

This document was approved by the Magontec Limited Board of Directors on 28 February 2019.

This Corporate Governance Statement discloses the extent to which Magontec Limited complies with the ASX Corporate Governance Principles and Recommendations (3rd Edition) pursuant to ASX Listing Rule 4.10.3.

References below to 'Magontec', 'MGL' or the 'Company' refer to Magontec Limited and its wholly owned/or controlled subsidiaries.

Corporate Governance Context

Corporate Governance within any company takes place in the context of the company's circumstances – relative strength and availability of human and financial resources, its stage of development and shareholder expectations.

Certain of the recommendations of the ASX Corporate Governance Principles and Recommendations (3rd Edition) (as disclosed later in this document) have not been adopted by the Company.

MGL is a capital constrained company with a small team of core executives. Since abandonment of its original raison d'etre (the Stanwell electrolytic magnesium production facility) in the early part of the last decade, its primary tasks are the successful commercialisation of the Group's proprietary technologies, development of the Group's magnesium alloy production capabilities working with our Chinese partners in Qinghai to bring the new magnesium alloy cast house into production. This all takes place within the constraint of limited funding. It is a management challenge quite different from the challenges confronting a large established business. The act of judiciously allocating funding to the prime business tasks and management practices is one that requires careful balance to meet MGL's fiduciary responsibilities to members.
